

PROFESSIONAL CERTIFICATION COMMITMENT
FOR SITE PLAN APPROVAL
TOWN OF COLONIE

I, _____, a New York State licensed

- () Land Surveyor
- () Professional Engineer
- () Registered Architect
- () Landscape Architect

have been retained by the owner/developer to make periodic observations of the site of

_____ located at _____
at regular intervals in order to issue a certification of substantial compliance with respect to proper facility installation in accordance with the site plans as approved by the Planning Board, and will advise the Planning and Economic Development Department of any deviation, changes or discrepancies from the approved plans.

During installation of erosion control measures, initial clearing and grading operations and periods of active project site construction, I will visit the site at least once each week, and will provide copies of all site construction reports to the Planning and Economic Development Department at the end of each week. These construction reports shall detail construction progress and note observed deviations, changes or discrepancies from the approved plans.

Failure to provide said weekly site construction reports shall preclude acceptance by the Town of Colonie of the final certification for the project.

Upon completion of the site construction and prior to request for a certificate of occupancy I will certify to the Planning and Economic Development Department that the project has been completed to the best of my knowledge and belief in substantial accordance with the plans approved by the Planning Board.
